

JECO Reviewer Guidelines – Double-Blind Review

We sincerely thank the Reviewers for their valuable contribution to the peer review process, which is essential to ensuring the quality of our publications and advancing the dissemination of scientific knowledge.

1. Review process

Following a preliminary evaluation of the abstract by the reviewer and the acceptance of the agreed review timeline, the anonymized PDF file of the manuscript will be sent via email by the Editorial Office to the reviewer, along with the necessary instructions for the peer review process. Reviewers are asked to provide their comments and feedback directly on the PDF file, in the form of a structured review report.

2. Structure of the Review Report

- The report must be written in English, adopting either British or American usage consistently throughout
- Please, express your comments in a professional and courteous way

Before addressing the individual sections, please include:

- The title of the manuscript under review
- A general comment on the work
- The outcome of the peer review process, clearly indicating one of the following options: Accepted, Minor revisions, Major revisions or Rejected.

Comments should then follow the order of the manuscript sections:

1. Title
2. Abstract
3. Introduction
4. Materials and Methods
5. Results
6. Discussion
7. Conclusions
8. References

For each comment, please indicate the line number(s) or range of lines in the manuscript to facilitate the review process.

3. Confidentiality and Anonymity

The review is conducted under a double-blind policy: no personal references, identifying information, or elements that could reveal the reviewer's identity should be included in the PDF file. For instance, please ensure that PDF files do not contain visible comments or annotations added through the "Comment" function. Likewise, the authors' identities are kept confidential, and no information revealing the identities of either the authors or the reviewers will be shared.

Any remarks intended only for the Editor and not to be shared with the authors must be sent separately via email when submitting the review report (either in the body of the email or in a separate file). The Editorial Office will forward this information to the Editor.

4. Submission of the Review Report

At the end of the review process, please submit the PDF file containing your comments according to the instructions provided by the Editorial Office, which will remain available to provide information or clarification at any stage of the editorial process.

The staff of JECO journal thanks you for your collaboration
